Subject: Dimock Update (1430 hrs., 3/1/12)
Date: 03/01/2012 03:02 PM

The OSC and ATSDR plan to visit a resident tonight to discuss potential health concerns. This residence was the latest one where preliminary data indicated the need for alternate water. Although Cabot was already providing water, the resident still requested this meeting with EPA.

The site team is mobilizing back to the site on Sunday, 3/4/12, to resume sampling on Monday, 3/5/12. Four homes are currently scheduled (2 Monday, 2 Tuesday), with at least one more to be scheduled during the week.

Delivery of alternate water continues.
